WORK EXPERIENCE

Software Engineer 1

Nuvolo

04/2024 - Present

Achievements/Tasks

- Implemented dynamic filter and sort systems with external Apply buttons, managing query states (filterValues , queryKeys , order) per widget.
- Created search modal in React Native with AsyncStorage for managing recent search history with options to clear single/all entries dynamically.
- Implemented keyboard-aware UI to dynamically hide/show bottom tabs for an improved mobile experience.
- Refactored large monolithic components into modular components for better readability and maintainability.
- Led a major performance overhaul of the offline data sync mechanism, optimizing the pipeline from Snowflake to device by batch insertions, parallel async workers, and multi-core CPU utilization—resulting in reduced SQL parsing overhead, and improvement in setup time 100.6x faster

Frontend Developer

Freelancing

04/2023 - 03/2024

Remote

Achievements/Tasks

- Authored on multiple projects, an Admin panel and a Tailored website for clients.
- Collaborated with team members to develop projects that required problem-solving, communication, and code optimization.
- Implemented optimization techniques to improve website speed and reduce load.
- Participated in code reviews and provided constructive feedback to fellow developers.

Frontend Developer

INOFFICE LABS PVT Ltd

03/2022 - 09/2023

Remote

Achievements/Tasks

- Worked on developing and maintaining web-based applications using HTML, CSS, JavaScript, React, Redux, and Redux Saga.
- Developed and maintained JavaScript and React-based applications and projects.
- Utilized Tailwind CSS, Bootstrap, and Styled Components in web development projects.

SKILLS

ReactJS

React-Native

Redux

Redux-Toolkit

JavaScript

HTML

CSS

Tailwind CSS

Bootstrap

Git

GitHub

Debugging

Draw.io

Visual Studio Code

DSA

TypeScript

PERSONAL PROJECTS

Urban-Clap

- I created a service booking app.Using Redux with React.js.
- Users can book salon and massage appointments, as well as plumbing, electrical work, and house cleaning.
- <https://github.com/ShivamYadav3/major-Project>

React Github Profiler

- Developed a project using ReactJs.
- Implemented the GitHub profile access feature.
- Users can access information includes name, city, bio, followers, following, and repository list by entering their ID.
- <https://github.com/ShivamYadav3/GitHub-Profile-Viewer>

NetFlix UI

- Implemented a replica of the Netflix utilizing React JS.
- <https://github.com/ShivamYadav3/Netflix-clone>

Snapdeal UI

- Created a replica of the Snapdeal using HTML, CSS, and JS.
- <https://github.com/ShivamYadav3/Snapdeal-clone>

Myntra UI

- The Myntra website was recreated using HTML, CSS, JavaScript, Git, and Media Queries.
- https://github.com/ShivamYadav3/Myntra_clone

EDUCATION

Bachelor of Engineering

Global Nature Care Sangathan's Group of Institutions

06/2015 - 05/2019
